Thanks Jose -

Great to see you also. Good job on your presentation.

On the question about over laying the fracking locations with tribal lands; we have asked DOGGR to provide us a plan to produce a GIS data for all class II wells. Laura could probably get our GIS office to produce a tribal overlay. This would probably take some time and would not address NV so if you have a better solution after talking w your folks lmk.

Good luck with your LV detail. I will be in LV for work w Jane at the end of September. If you are still there and would be interested in joining us for dinner one night let me know. I think the dates are the 24th and 25th.

Cheers

Mike

Was great to touch base. Thanks for covering the policy questions!

Cheers,

Jose
